# Critical Access Hospitals

California has 34 certified Critical Access Hospitals (CAH) across 31 grids statewide. CAHs are small rural hospitals located in isolated areas of the state. To be eligible to be a CAH, the hospital must, among other requirements, have 25 beds or less, be located at least 35 miles from another facility and provide 24-hour emergency services, with medical staff on-site. The CAHs preserve access to quality healthcare for residents living in the State's vast underserved rural and remote areas.
