

Dental Health Professional Shortage Areas

The federal HPSA designation is given to areas that demonstrate a shortage of healthcare providers, on the basis of availability of dentists. This designation is based on the MSSA boundary, its population to (selected type of) practitioner ratio, and available access to healthcare.

The data displayed in this map were created by the California Office of Statewide Health Planning and Development's (OSHPD) Healthcare Workforce Development Division (HWDD). To obtain more information about the federal designations shown on the map, see <http://www.oshpd.ca.gov/HWDD/HPSA.html>
